

 **TELEDYNE LAARS**

The Hi-E Commercial Pool Heater 97% Energy Efficient

- **Efficiency Far Exceeds Other Heaters, Reduces Heating Costs by 30% and More!***
- **Performance and Reliability Backed by Strong Warranty**
- **State-of-the-Art Design With Easy Operation**

With the development of the Hi-E heater, a unique opportunity has become available to commercial swimming pool and spa owners and managers. Significant savings in fuel costs over other gas-fired pool heaters are now assured. And most important, the Hi-E is backed by the largest manufacturer of pool/spa heating systems in the world-Teledyne Laars™.

Designed to meet the special demands of a commercial or multi-unit residential swimming environment, the Hi-E offers unequalled energy savings. With 97% efficiency, operating savings of 30% to 40% are achieved.
